Inhalation: If inhalation causes irritation, supply fresh air. Amber fragrance is warm, rich and enveloping — use in well-ventilated areas at appropriate concentrations.

Ingestion: Rinse out mouth and drink plenty of water. Seek medical attention immediately.

SECTION 4: FIRST AID MEASURES

Eyes: Flush with plenty of water or eyewash solution for 15 minutes. Get immediate medical attention.

Skin: Remove contaminated clothing. Wash with soap and flush with plenty of water. Seek medical attention if irritation or allergic reaction persists.

Ingestion: Administer water or milk to dilute. Seek medical attention immediately or call a poison control center.

Inhalation: Remove to fresh air. Seek medical attention if needed.

SECTION 5: FIRE AND EXPLOSION DATA

Flash Point (Method Used): >96°C Close Cup

Extinguishing Media: Dry Chemical, Carbon Dioxide, Foam

Unsuitable Media: Water (except to cool containers)

Special Firefighting Procedures: Fire fighters should wear positive pressure self-contained breathing apparatus. Toxic vapors may be released on combustion. Cool containers exposed to flame with water.

Unusual Fire & Explosion Hazards: Not established — high flash point makes this a low fire risk material

Hazardous Decomposition Materials: Benzoic acid fumes may form from benzoin component during combustion

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal Protection: Avoid ingestion. Follow good industrial hygiene practices. Wear eye protection, gloves and aprons. Ventilate area well.

Methods for Cleaning Up: Eliminate all sources of ignition. Ventilate area. Prevent liquid from entering sewers. Note: material is viscous — may require gentle warming for cleanup.

- Small spills: wipe up with paper rags or absorb with inert material (place in closed waste container)
- Large spills: absorb onto non-flammable absorbent. Wash area with soap and water. Dispose per local regulations.

SECTION 7: HANDLING AND STORAGE

Safe Handling: Avoid ingestion. Follow good industrial hygiene practices. Wear eye protection and gloves. Always dilute before topical application — recommended 1–3%. The labdanum and benzoin components make this a highly tenacious fixative fragrance — a small amount goes a very long way.

Storage Requirements: Store in a cool, dry, and well-ventilated area. Do not expose to temperatures over 25°C. Keep tightly sealed in dark glass or aluminium containers. Note: vanillin and labdanum content may cause the color to deepen slightly over time — normal. Shelf life up to 3 years when properly stored.

SECTION 8: EXPOSURE CONTROL / PERSONAL PROTECTION

Threshold Limit Value: Not established

Work Practice Controls: Personal hygiene is an important work practice exposure control measure.

- Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
- Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
- Wash exposed skin promptly to remove accidental splashes or contact with this material.

Respiratory: Avoid prolonged breathing of concentrated vapors. Use in well-ventilated areas.

Conditions to Avoid: Avoid contact with sparks, flame, heat and direct light.

Hazardous Decomposition By-products: Benzoic acid fumes and aromatic compounds may form during combustion.

Hazardous Polymerization: Will Not Occur

SECTION 11: TOXICOLOGICAL INFORMATION

CAUTION: Contains benzoin (coniferyl benzoate) and coumarin (tonka bean) — IFRA-restricted ingredients and EU-declarable allergens. Contains vanillin — mild sensitizer. Always dilute before topical use.

Irritancy: May cause mild to moderate skin and eye irritation when used undiluted

Sensitization: Contains coniferyl benzoate (benzoin) and benzyl benzoate — IFRA-restricted ingredients and potential skin sensitizers. Contains coumarin from tonka bean — EU-declarable fragrance allergen. Use at recommended dilution levels (1–3%).

Health Hazards (Acute & Chronic): Ingestion of large quantities: Harmful. Generally considered safe for adult use at recommended dilutions. Consult a healthcare professional before use during pregnancy.
