

RV INTERNATIONAL

Essential Oils Manufacturer & Bulk Supplier in India

GST NO. 06BGIPG9360E1ZF

Address: Opposite Sudhanshu Maharaj Ashram, Shiv Mandir, Nimbri, Panipat, Haryana 132104

MATERIAL SAFETY DATA SHEET (MSDS)

SECTION 1.1 — PRODUCT IDENTIFICATION

PRODUCT NAME: MIMOSA ESSENTIAL OIL

BOTANICAL NAME: Acacia dealbata

SYNONYMS: Mimosa Absolute, Silver Wattle Oil, Acacia dealbata Oil

MOLECULAR FORMULA: NOT APPLICABLE

MOLECULAR WEIGHT: NOT APPLICABLE

CAS No.: 8031-03-6

SECTION 1.2 — COMPANY IDENTIFICATION

Company Name: RV International

Address: Shiv Mandir, Ujha Rd, Opposite Sudhanshu Aashram, Nimbri, Panipat, Haryana 132104

Telephone: +91 8937003005

Email: info@rvorganica.com

Website: www.rvorganica.com

SECTION 2: COMPOSITION / INFORMATION ON INGREDIENTS

Name	CAS #	HAZARDOUS STATEMENT
MIMOSA ESSENTIAL OIL	8031-03-6	Flammable Liquid; Mild Skin/Eye Irritant; Sensitizer (Anisaldehyde, Linalool)

HAZARDOUS CLASSIFICATION: FLAMMABLE LIQUID; MILD SKIN AND EYE IRRITANT.

*PERSONAL CARE, COSMETIC & PERFUMERY PURPOSE — USE AS PER IFRA GUIDELINES.

SECTION 3: HAZARD IDENTIFICATION

The toxicological properties of this material have not been fully investigated.

Eye Contact: Causes mild eye irritation upon direct contact. Possible damage with prolonged exposure.

Skin Contact: May cause mild skin irritation and sensitization upon prolonged or repeated undiluted exposure. Contains anisaldehyde and linalool — use in recommended dilutions.

Inhalation: High concentrations of vapour may cause mild headache. Move to fresh air if irritation occurs.

Ingestion: Rinse out mouth and drink plenty of water. Do not induce vomiting. Seek medical attention if large quantities ingested.

SECTION 4: FIRST AID MEASURES

Eyes: Flush immediately with plenty of water or eyewash solution for at least 15 minutes. Get immediate medical attention.

Address: Opposite Sudhanshu Maharaj Ashram, Shiv Mandir, Nimbri, Panipat, Haryana 132104

Skin: Remove contaminated clothing. Wash thoroughly with soap and plenty of water for at least 15 minutes. Seek medical attention if irritation, redness or allergic reaction persists.

Ingestion: Administer water or milk to dilute. Seek medical attention immediately or call a poison control center. Do not induce vomiting.

Inhalation: Move to fresh air immediately. Seek medical attention if symptoms such as dizziness or breathing difficulty persist.

SECTION 5: FIRE AND EXPLOSION DATA

Flash Point (Method Used): >70°C Close Cup

Extinguishing Media: Dry Chemical, Carbon Dioxide, Foam

Unsuitable Media: Water (except to cool containers)

Special Firefighting Procedures: Fire fighters should wear positive pressure self-contained breathing apparatus. Toxic vapors may be released upon combustion. Cool containers exposed to flame with water. Spray extinguishing media directly into base of fire.

Unusual Fire & Explosion Hazards: Not established

Hazardous Decomposition Materials: Carbon monoxide (CO), carbon dioxide (CO₂) and irritating organic vapours may form upon combustion

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal Protection: Avoid ingestion and skin/eye contact. Follow good industrial hygiene practices. Wear eye protection, chemical-resistant gloves and aprons. Eliminate all ignition sources. Ventilate area well.

Methods for Cleaning Up: Eliminate all sources of ignition. Ventilate area thoroughly. Prevent liquid from entering sewers or waterways.

- Small spills: wipe up with paper rags (place in closed metal waste container)
- Large spills: absorb onto non-flammable absorbent material. Wash area thoroughly with soap and water.

SECTION 7: HANDLING AND STORAGE

Safe Handling: Avoid skin and eye contact. Always dilute before topical use. Follow good industrial hygiene practices. Use in well-ventilated areas. Keep away from heat, sparks and open flames. Keep containers tightly sealed when not in use to prevent oxidation and vapour loss.

Storage Requirements: Store in a cool (below 25°C), dry, dark, well-ventilated place in tightly sealed aluminium or amber glass containers. Protect from direct sunlight and air oxidation. Shelf life: 24 months from manufacture.

SECTION 8: EXPOSURE CONTROL / PERSONAL PROTECTION

Threshold Limit Value: Not established

Work Practice Controls: Personal hygiene is an important work practice exposure control measure.

- Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
- Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.

Address: Opposite Sudhanshu Maharaj Ashram, Shiv Mandir, Nimbri, Panipat, Haryana 132104

- Wash exposed skin promptly to remove accidental splashes or contact with this material.

Respiratory: Avoid casual breathing of concentrated vapours. Use approved respirator with organic vapour cartridge if ventilation is inadequate.

Ventilation: Local, mechanical exhaust recommended

Eye: Wear chemical-splash resistant safety goggles

Skin: Wear chemical resistant gloves (nitrile/neoprene) and protective clothing to avoid skin contact

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State: Liquid, Oil

Color: Yellow to Golden Yellow

Odor: Sweet, Powdery, Floral, Honey-like, Delicate — Characteristic Mimosa Blossom Scent

Vapor Pressure (mmHg.): Not available

Flash Point: >70°C (Closed Cup)

Boiling Point: Not available

Melting Point: NA

Density @25°C: 0.858

Refractive Index @25°C: 1.462

Solubility in Water: Practically insoluble in water; miscible with alcohol and fixed oils

SECTION 10: STABILITY AND REACTIVITY

Stability: This material is stable under normal conditions. Sensitive to light, heat and air — store in amber glass or aluminium and reseal tightly after each use to maintain fragrance integrity.

Incompatibility (Materials to Avoid): Avoid contact with strong oxidizing agents and hot sources of ignition on or near empty containers.

Conditions to Avoid: Avoid contact with sparks, flame, heat and direct sunlight. Prolonged air exposure may alter the delicate floral composition.

Hazardous Decomposition By-products: Carbon monoxide (CO), carbon dioxide (CO₂) and irritating organic vapours may form during combustion.

Hazardous Polymerization: Will Not Occur

SECTION 11: TOXICOLOGICAL INFORMATION

CAUTION: Contains anisaldehyde and linalool which may cause sensitization in susceptible individuals. Use only in recommended dilutions for topical applications.

Irritancy: Mild skin and eye irritation upon direct undiluted contact

Sensitization: May cause allergic skin reaction in sensitized individuals. Anisaldehyde is a potential sensitizer at higher concentrations. Always dilute properly before skin use.

Health Hazards (Acute & Chronic): Ingestion of large quantities: Harmful. Generally considered a well-tolerated essential oil at recommended dilution levels in cosmetic and perfumery applications.

Harmful Contact: Mild Irritant

Eye Contact: Mild Irritant

Note: The above effects are based on evaluation of individual components. Mimosa essential oil is one of the most prized florals in natural perfumery. It is generally gentle and well-tolerated when properly diluted. Handling resulting in inhalation of concentrated vapours or prolonged undiluted skin contact may cause mild adverse health effects.

SECTION 12: ECOLOGICAL INFORMATION

Toxicity: May be harmful to aquatic life with long lasting effects. Avoid release into the environment.

Persistence: Biodegradable under aerobic conditions.

Bioaccumulation: Low potential for bioaccumulation.

SECTION 13: DISPOSAL CONSIDERATION

Waste Disposal Methods: Dispose of according to local, state and federal regulations. Do not dispose via sewage drains. Incinerate in approved facility.

SECTION 14: OTHER REGULATORY INFORMATION

CAS NO: 8031-03-6

Hazards: Flammable Liquid; Mild Skin Irritant; Eye Irritant; Sensitizer

Risk Phrases: Mildly irritating to eyes and skin if used undiluted or in excessive amounts. May cause sensitization by skin contact due to anisaldehyde and linalool content. May be harmful to aquatic organisms with long-term effects.

Safety Phrases: Avoid contact with eyes and skin. Always dilute before topical application. In case of contact with eyes, rinse immediately with a steady stream of water and seek medical advice. Store in amber glass or aluminium away from light and heat. Keep out of reach of children.

IFRA Compliance: Use in compliance with current IFRA guidelines for respective product category.

REACH: Compliant with EU REACH Regulation (EC) No. 1907/2006.

SECTION 16: ADDITIONAL INFORMATION

This information is provided for documentation purposes only.

The information contained in this Material Safety Data Sheet is obtained from current and reliable sources. The information contained herein is true and to the best of RV International's knowledge.
