### SECTION 3: HAZARD IDENTIFICATION

The toxicological properties of this material have not been fully investigated.

**Eye Contact:** Irritation will occur with possible damage. Flush immediately with water.

**Skin Contact:** May cause mild irritation upon prolonged or undiluted exposure. May cause sensitization in sensitive individuals. Always dilute before topical application. Use with the drop-by-drop technique due to the potency of the oudh component.

**Inhalation:** If inhalation causes irritation, supply fresh air. Oudh Twist has an intensely rich, tenacious fragrance — use in well-ventilated areas and at low concentrations.

**Ingestion:** Rinse out mouth and drink plenty of water. Seek medical attention immediately.

### SECTION 4: FIRST AID MEASURES

**Eyes:** Flush with plenty of water or eyewash solution for 15 minutes. Get immediate medical attention.

**Skin:** Remove contaminated clothing. Wash with soap and flush with plenty of water. Seek medical attention if irritation persists.

**Ingestion:** Administer water or milk to dilute. Seek medical attention immediately or call a poison control center.

**Inhalation:** Remove to fresh air. Seek medical attention if needed.

## SECTION 5: FIRE AND EXPLOSION DATA

**Flash Point (Method Used):** >80°C Close Cup

**Extinguishing Media:** Dry Chemical, Carbon Dioxide, Foam

**Unsuitable Media:** Water (except to cool containers)

**Special Firefighting Procedures:** Fire fighters should wear positive pressure self-contained breathing apparatus. Toxic vapors may be released on combustion. Cool containers exposed to flame with water.

**Unusual Fire & Explosion Hazards:** Not established — high flash point makes this a relatively safe material

**Hazardous Decomposition Materials:** Smoke and unidentified aromatic compounds may form during combustion

## SECTION 6: ACCIDENTAL RELEASE MEASURES

**Personal Protection:** Avoid ingestion. Follow good industrial hygiene practices. Wear eye protection, gloves and aprons. Ventilate area well.

**Methods for Cleaning Up:** Eliminate all sources of ignition. Ventilate area. Prevent liquid from entering sewers. Note: material is viscous — may require gentle warming for cleanup.

- Small spills: wipe up with paper rags or absorb with inert material (place in closed waste container)
- Large spills: absorb onto non-flammable absorbent. Wash area with soap and water. Dispose per local regulations.

## SECTION 7: HANDLING AND STORAGE

**Safe Handling:** Avoid ingestion. Follow good industrial hygiene practices. Wear eye protection and gloves. Due to the extreme potency of the agarwood component, use the drop-by-drop technique — a very small amount goes a long way. Always dilute before topical application.

**Storage Requirements:** Store in a cool, dry, and well-ventilated area. Do not expose to temperatures over 25°C. Keep tightly sealed in dark glass or aluminium containers away from light and heat. The agarwood/oudh component acts as a natural fixative and preserves the blend. The fragrance profile of oudh-based blends typically deepens and improves with age.

## SECTION 8: EXPOSURE CONTROL / PERSONAL PROTECTION

**Threshold Limit Value:** Not established

**Work Practice Controls:** Personal hygiene is an important work practice exposure control measure.

- Do not store, use, and/or consume foods, beverages, tobacco products, or cosmetics in areas where this material is stored.
- Wash hands and face carefully before eating, drinking, using tobacco, applying cosmetics, or using the toilet.
- Wash exposed skin promptly to remove accidental splashes or contact with this material.

**Respiratory:** Avoid prolonged breathing of concentrated vapors. Use in well-ventilated areas.

**Ventilation:** Local, mechanical exhaust recommended

**Eye:** Wear safety glasses

**Skin:** Wear chemical resistant gloves and clothing to avoid undiluted skin contact
